

Translating military skills to civilian skills

As you create your resume or prepare for an interview, avoid military jargon and terms. Most civilian employers will not understand military terminology, abbreviations and acronyms.

Use the following guidelines to prevent this problem:

- Write out terms and explain what they mean when necessary.
- For specialized military training, list the names and number of hours of professional and technical training you have taken. Only include training if it relates to the job.
- Briefly explain any course that may be pertinent to the job. For example, write "Management and Supervision" as a course title. Then add the course content: equal opportunity law; giving and receiving positive and negative feedback; and giving directions.
- Use civilian equivalent phrases and titles. Civilian recruiters will not take the time to translate your resume into civilian terms and may not see you as qualified for the position. Below are some military terms with recommended civilian equivalents.

Military term	Civilian equivalent
NCOIC	Supervisor, manager, coordinator.
TDY/TAD	Business related travel.
PCS	Relocation.
NCO Academy	Leadership management training.
War College	Executive military leadership school.
