

# Rapid Response services

## Support for businesses preparing for layoffs and closures.

Rapid Response is a service offered to businesses and employees affected by layoffs or plant closures. Early job placement assistance and other resources are available to those who qualify. The purpose is to minimize the negative impacts associated with employment loss. For more information contact [RapidResponse@labor.idaho.gov](mailto:RapidResponse@labor.idaho.gov).

## Benefits to your business

Businesses may be eligible to receive a no-cost services orientation (which consists of onsite or virtual options) about available public services for their impacted employees. Understanding reemployment resources prior to a layoff helps maintain employee morale and demonstrates that your business has a high regard for its employees in transition. Access to state and local programs can help displaced workers return to the workforce faster after a layoff.

## Benefits your employees may be eligible to receive:

- Job search assistance
- Employment referrals
- Resume and interview preparation
- Unemployment Insurance navigation
- Labor market information
- Job training opportunities
- Customized hiring events
